Summary

I'm an aspiring Full Stack Developer with a strong foundation in both front-end and back-end technologies. I have experience building responsive, user-friendly web applications using HTML, CSS, JavaScript, and frameworks like React.js on the front end. I'm also familiar with databases like MySQL.

I'm passionate about coding, problem-solving, and continuously learning new technologies to improve my skills. While I'm at the beginning of my career, I'm eager to contribute to real-world projects, collaborate with experienced teams, and grow as a developer in a dynamic environment.

Skills

- Python programming language
- Object-oriented programming (OOP)
